S&P COMPLETES EXTENSIVE RENOVATIONS TO CY-FAIR SCHOOLS

HOUSTON, TEXAS (January 16, 2012) – Satterfield & Pontikes Construction, Inc. (S&P) recently completed \$36.7 million in upgrades at several Cypress-Fairbanks Independent School District campuses in northwest Houston. The project included new construction and renovations to Cy-Fair High School, Arnold Middle School and Lamkin Elementary School as well as renovations to the Instructional Support Center.

Designed by PBK Architects, the work included 76,000 square feet of new construction to enlarge campuses and more than 460,000 square feet of renovations to upgrade existing facilities. New construction provided additional room for science labs, classrooms, gymnasiums, rehearsal hall and central plant.

Performing work on occupied campuses while school was in session added to the project's complexity. Precise schedules allowed work to be performed in phases to minimize disruptions and provide additional safety for faculty, staff and students.

Renovation work included substantial upgrades to classrooms, libraries, administrative offices, fine arts, science, and athletics facilities. Project work also included roofing, plumbing, mechanical, paving, masonry, drywall, electrical, safety and technology upgrades as well as new storm water detention systems.

S&P has performed renovations, upgrades, and new campus construction at more than 20 Cypress-Fairbanks ISD campuses.

About Satterfield & Pontikes Construction

Established in 1989, Satterfield & Pontikes Construction, Inc. is an award-winning general contractor and construction manager. S&P is recognized as one of Engineering News-Record's Top 400 Contractors and Top 100 Green Builders in America.
