S&P COMPLETES NEW BUILDINGS FOR LONE STAR COLLEGE-MONTGOMERY

Public invited to open house celebration February 1 to tour new facilities

HOUSTON, TEXAS (January 28, 2011) – Satterfield & Pontikes Construction, Inc. (S&P) recently completed the most significant expansion in the history of Lone Star College-Montgomery with the addition of three new educational facilities at the campus north of Houston. To celebrate the unveiling of the new facilities, the public is invited to view the buildings during open house festivities on Tuesday, February 1, from 5-7 p.m.

S&P constructed the General Academic Center, Music Hall, and Health Science Center, adding 155,000 square feet of space to the campus. Designed by PBK Architects, the \$26.7 million project increased the campus size to almost 60 percent larger than its original size.

The two-story, 75,000-square-foot General Academic Center is the new centerpiece of the campus and will provide classrooms, computer and language labs, faculty offices, 100-seat tiered lecture hall, and student lounge with covered patio and coffee bar. The 20,000-square-foot Music Hall is the only building in the LSC system devoted entirely to music. It offers rehearsal and practice rooms, music classroom and lab, office areas, and a 175-seat recital performance hall. The rehearsal space contains 13 individual practice rooms, band hall, and choir hall.

The cutting-edge, 60,000-square-foot Health Science Center provides 30 classrooms, faculty offices, and specialized science labs. It will also provide the nursing program with a realistic, hospital-type setting with 28 beds and equipment. The center will house a patient simulation area, adult and pediatric intensive-care units, and maternal/newborn area.

The open house celebration will include campus tours. The campus is located on College Park Drive approximately one-half mile west of Interstate 45 North near The Woodlands.

About Satterfield & Pontikes Construction

Established in 1989, Satterfield & Pontikes Construction, Inc. is an award-winning general contractor and construction manager. *Engineering News-Record* ranks S&P #107 in 'Top 400 Contractors' in the U.S. *Texas Construction* ranks S&P #18 in 'Top Texas Contractors' (out of 125 firms) and #3 in 'Educational Facility Construction.'
