**SATTERFIELD & PONTIKES CONSTRUCTION, INC. WINS CONTRACT
TO RENOVATE KENNEDY CURRY MIDDLE SCHOOL IN DALLAS**

DALLAS, TX (April 8) – The Dallas Independent School District recently awarded Satterfield & Pontikes (S&P) a contract to renovate the Kennedy Curry Middle School under the District’s 2008 bond program. S&P was selected as offering the District the best value on the nearly \$18 million project. Work will begin in May.

Renovation of the school’s three wings will include interior demolition and replacement of ceilings, flooring, windows, lights, and roof. S&P will also construct a new 52,000-square-foot addition with cafeteria expansion that will tie into the existing wings. The 130,945-square-foot project will require demolition of Bishop Heights Elementary and several other buildings as well as construction of new football, baseball and softball fields.

“I am very pleased that S&P will be able to provide Dallas ISD with these needed upgrades and continue our long, successful partnership with the District,” said George A. Pontikes, Jr., President and CEO of Satterfield & Pontikes.

S&P’s solid reputation with school districts throughout Texas allows it to continue to procure projects even as the construction industry experiences a shrinking pool of work. As a general contractor in Texas for more than 20 years, S&P has constructed or renovated hundreds of schools in the state.

Established in 1989, Satterfield & Pontikes Construction, Inc. is a general contractor and construction manager with offices in Louisiana and Texas and projects throughout the Gulf Coast. S&P is recognized as one of *Engineering News-Record's* "**Top 400 Contractors**" and ranks near the top of *Texas Construction's* "**General Building Contractors.**" *Texas Construction* also ranks S&P as **#3 in Educational Facility Construction**. S&P's commitment to sustainable construction has earned them a spot on *Engineering News-Record's* "**Top 50 Green Builders**" in America.
