S&P TO PROVIDE SERVICES FOR \$1.2 BILLION JFK AIRPORT PROJECT

HOUSTON, TEXAS (May 4, 2011) – Satterfield & Pontikes Construction, Inc. (S&P) was selected to provide project controls services for the \$1.2 billion Delta Air Lines redevelopment and renovation project at John F. Kennedy International Airport in New York. In a joint venture with STV, a leading firm offering engineering, construction management, environmental, planning, and architectural services, S&P will provide estimating, scheduling, and cost control for the multi-year project.

Delta Air Lines plans to renovate and expand Terminal 4 and demolish Terminal 3 as part of the overhaul of one of its hubs for overseas flights. The expansion of Terminal 4 includes a major addition to the concourse, the addition of nine new international gates, and construction of a connector between Terminals 2 and 4.

S&P will provide the advanced skill sets and technology to help ensure success of the \$1.2 billion project. S&P built a complete software model of the project to provide Building Information Modeling (BIM) and applied proprietary software to deliver these enhanced services to Delta.

S&P is providing an onsite virtual studio at JFK for use by Delta, its general contractors, and subcontractors to assist in schedule planning and project execution. The project schedule will be tied to the BIM model and provide earned value management. S&P also will provide field supervision for the numerous general contractor and construction management delivery methods Delta will use on the project.

The project includes a new baggage claim area and new passenger security checkpoint. Delta will relocate Terminal 3 operations to the expanded and renovated Terminal 4 and will pave the Terminal 3 site for aircraft parking. The project is scheduled for completion in 2015.

About Satterfield & Pontikes Construction

Established in 1989, Satterfield & Pontikes Construction, Inc. is an award-winning general contractor and construction manager. *Engineering News-Record* ranks S&P #107 in 'Top 400 Contractors' in the U.S. *Texas Construction* ranks S&P #18 in 'Top Texas Contractors' (out of 125 firms) and #3 in 'Educational Facility Construction.'
