**SATTERFIELD & PONTIKES COMPLETES CONSTRUCTION OF  
PRIMARY HEALTH CLINIC AT FORT SAM HOUSTON**

***\$34.9 Million Clinic Will Ease Healthcare Workload on Existing Base Facilities***

SAN ANTONIO - May 10, 2010 – **Satterfield & Pontikes Construction, Inc.** (S&P), a premier Texas-based commercial construction firm, today announced completion of the \$37.0 million Primary Health Clinic at Fort Sam Houston in San Antonio. The 132,000-square-foot clinic is a registered LEED Silver facility that will provide inpatient, outpatient and specialty healthcare services.

S&P completed construction of the two-story, steel and brick structure in 20 months. S&P achieved substantial completion on April 30, 2010 and will present the keys and hand over the facility to the U.S. Army Corps of Engineers this month.

As part of Fort Sam Houston's network of medical services, the Primary Health Clinic will relieve the considerable patient load from the post's existing medical facilities. The facility will also help to alleviate the additional workload resulting from relocation of thousands of active duty soldiers and their family members to the San Antonio area.

Satterfield & Pontikes Construction has played an integral role in Fort Sam Houston's ongoing expansion. The Primary Health Clinic is only one in a series of S&P projects at the post; S&P has constructed or renovated several buildings, including training, medical and housing facilities. S&P continues to expand its federal government work in the region, counting the U.S. Army, Air Force, Navy, and National Aeronautics and Space Administration among its growing client list.

**About Satterfield & Pontikes Construction**

Established in 1989, Satterfield & Pontikes Construction, Inc. is a general contractor and construction manager with offices in Texas and Louisiana and projects throughout the Gulf Coast states. S&P is recognized as one of *Engineering News-Record's* "**Top 400 Contractors**" and ranks near the top of *Texas Construction's* "**General Building Contractors.**" *Texas Construction* also ranks S&P as **#2 in Government Services Buildings** and as the **#9 Top Design/Builder** (Construction).
