**S&P PLAYS MAJOR ROLE IN WAL-MART STORES 2011 BUILDING PROGRAM**

**HOUSTON, TEXAS** (August 17, 2011) – Wal-Mart Stores, Inc. has undertaken a robust building program in 2011, and Satterfield & Pontikes Construction, Inc. (S&P) will deliver many of the new projects for the world’s largest retailer. S&P has secured no fewer than 10 Wal-Mart projects totaling nearly \$80 million during 2011.

From Houston to El Paso and Corpus Christi to Oklahoma, S&P is managing Wal-Mart’s aggressive schedules to complete the facilities for openings this year and early 2012. S&P is managing these projects from three of its business units – San Antonio, Dallas and Houston.

S&P is simultaneously constructing three Wal-Mart Supercenters in Corpus Christi, scheduled for opening in 2011. In the Dallas-Fort Worth area, S&P is working to complete projects in Farmers Branch, Red Oak, Crowley, and Sanger. Most recently, S&P secured Wal-Mart project work in Baytown. S&P also will deliver projects for Wal-Mart in Midwest City, Oklahoma in 2011 and in El Paso, Texas in early 2012.

S&P was selected from Wal-Mart’s pool of pre-selected contractors for the projects. Wal-Mart has indicated that S&P is a trusted partner when it comes to the timely and on-budget construction of their facilities, with work ranging from parking lot repairs to Neighborhood Markets to new Supercenters.

S&P’s Wal-Mart experience the past few years includes new construction and renovation of more than 30 Supercenters. S&P’s projects for Wal-Mart exceed \$250 million and comprise more than 6 million square feet of space.
