**DISD AWARDS CONTRACT TO SATTERFIELD & PONTIKES
TO BUILD NEW W.H. ADAMSON HIGH SCHOOL**

DALLAS, TX (September 2) – The Dallas Independent School District recently awarded Satterfield & Pontikes Construction, Inc. (S&P) a contract to build the new \$40 million W.H. Adamson High School. S&P was ranked first out of nine highly competitive proposals received by the District for Bid Package 67 as part of the 2008 \$1.35 billion bond program. Designed by Corgan Associates, the new three-story school on the city’s south side is expected to take 24 months to complete.

The new facility will replace the existing Adamson High School, which is one of the oldest school buildings in Dallas, and will be built adjacent to the current campus. Project work includes construction of the new 223,000-square-foot high school and Industrial Technology building, renovation of an existing classroom wing, and construction of sports facilities to include a baseball and softball complex, tennis courts, outdoor basketball court and soccer field.

S&P has provided renovations, upgrades, and new construction at numerous Dallas ISD campuses in the District’s bond programs. S&P has performed tens of millions of dollars worth of work for DISD and has become one of the District’s most reliable builders and a contractor of choice.

S&P’s solid reputation with school districts throughout Texas allows it to continue to procure projects even as the construction industry experiences a shrinking pool of work. As a general contractor in Texas for more than 20 years, S&P has constructed or renovated hundreds of schools in the state.

About Satterfield & Pontikes Construction

Established in 1989, Satterfield & Pontikes Construction, Inc. is a general contractor and construction manager with offices in Texas and Louisiana. *Engineering News-Record* ranks S&P **#107 in "Top 400 Contractors"** in the U.S. *Texas Construction* ranks S&P **#18 in "Top Texas Contractors"** (out of 125 firms) and **#3 in "Educational Facility Construction."** S&P's commitment to sustainable construction also earned a spot on *Engineering News-Record's* **"Top 50 Green Builders"** in America.
