**S&P COMPLETES MASSIVE FOUR-SCHOOL RENOVATION AND ADDITION
PROJECT FOR CYPRESS-FAIRBANKS INDEPENDENT SCHOOL DISTRICT**

HOUSTON - September 28, 2010 – **Satterfield & Pontikes Construction, Inc. (S&P)** recently completed a massive renovation and construction project at four Cypress-Fairbanks ISD schools. The work included 216,000 square feet of new construction to enlarge campuses and more than 700,000 square feet of renovations to upgrade existing facilities.

The \$159.7 million project at Cypress Creek and Jersey Village high schools, Bleyl Middle School, and Post Elementary School provided new classrooms, libraries, science labs, and art and music areas. Upgrades included new ceilings, lights, walls, mechanical, electrical, plumbing, and fire-prevention systems.

The sheer volume of work presented a formidable challenge. Adding to the project's complexity was performing work on occupied campuses while school was in session. S&P used advanced modeling technology to develop three-dimensional designs and complete schedules. The use of technology helped focus the planning and expedite the construction process by providing precise schedules that allowed work to be performed in phases so as to minimize disruptions and provide additional safety for faculty, staff and students.

"I am very pleased that S&P was able to provide Cy-Fair ISD with these needed upgrades and continue our long, successful partnership with the District," said George A. Pontikes, Jr., President and CEO of Satterfield & Pontikes. S&P's history of providing successful project work for Cypress-Fairbanks ISD includes renovations, upgrades, and new construction at 17 Cy-Fair ISD campuses.

About Satterfield & Pontikes Construction

Established in 1989, Satterfield & Pontikes Construction, Inc. is a premier provider of construction services in Texas and across the southeastern U.S. *Engineering News-Record* ranks S&P **#107 in "Top 400 Contractors"** in the U.S. *Texas Construction* ranks S&P **#18 in "Top Texas Contractors"** (out of 125 firms) and **#3 in "Educational Facility Construction."** S&P's commitment to sustainable construction also earned a spot on *Engineering News-Record's* **"Top 50 Green Builders"** in America.
