S&P Dedicates Pearland's New Glenda Dawson High School

On August 23rd, Pearland ISD dedicated its new Glenda Dawson High School constructed by Satterfield & Pontikes Construction, Inc. (S&P). Representatives from PISD and the City of Pearland, as well as people from the community attended the ribbon-cutting of the district's new three-story, 380,000-square-foot educational facility built to accommodate up to 2,650 students. The facility, designed by PBK Architects of Houston, sits on a 75-acre site, features state-of-the-art educational, arts, and sports facilities, as well as aesthetic features designed to make the school a pleasant place to learn and teach.

Named for a long-time, highly-regarded Pearland educator who went on to serve as a state senator, the school fills a need for educational space in the fast-growing area. The project was recognized as one of the top construction projects in the state by a leading construction industry magazine. George A. Pontikes, Jr., President of Satterfield & Pontikes noted that, "Although the project is large and complex, the teamwork between the owner, the architect/engineer team, and our project team was exceptional."

Glenda Dawson High School opened its doors to students August 24th.

Established in 1989, Satterfield & Pontikes Construction, Inc. is a general contractor and construction manager with offices in Louisiana and Texas and projects throughout the Gulf Coast. S&P is recognized as one of *Engineering News-Record's* "**Top 400 Contractors**," and ranks near the top of *Texas Construction's* "**General Building Contractors**," and *Houston Business Journal's* "**Top 25 Commercial Building Contractors**." S&P's commitment to sustainable construction has earned them a spot on *Engineering News-Record's* "**Top 50 Green Builders**" in America, as well as recognition as one of the "**Top 10 Green Builders in Texas**" by the *Houston Business Journal*.
